

List of posters

Session I		
Rostam Yazdani-Biouki , Hossein Kari-Dolatabad, Farhad Dehghani, Mohammad Hossein Banaka, Hadi Pirasteh-Anosheh, Hossein Beyrami, Amir Parnian	<i>Evaluation of the salinity tolerance of fungal species</i>	Short video presentation
Piotr Koczorski , Bliss Ursula Furtado, Piotr Hulisz, Christel Baum, Martin Weih, Katarzyna Hryniewicz	<i>Selection and influence of P solubilizing microorganisms on growth and development of willow cuttings in pot experiment</i>	Short video presentation
Mariusz Wróbel , Sonia Szymańska, Tomasz Kowalkowski, Katarzyna Hryniewicz	<i>Acquisition of microorganisms capable of polyethylene (PE) and polypropylene (PP) degradation</i>	Short video presentation
Agnieszka Gałązka, Urszula Jankiewicz	The role of variovorax sp. bacterium in <i>modulating</i> plant resistance to environmental stresses	
Jan Majdura, Agnieszka Grabowska, Agnieszka Gałązka , Urszula Jankiewicz	<i>The role of N-acyl homoserine lactones in inducing the expression of selected genes (Solanum lycopersicum) in the presence of cadmium as an abiotic factor</i>	
Olga Regulska, Joanna Żak, Grażyna B. Dąbrowska, Agnieszka Mierek-Adamska	<i>The role of plant stringent response in the interactions between Sorghum bicolor and Bacillus sp.</i>	
Sellappan Ranjith and Thangavel Kalaiselvi	<i>Maize leaves apoplasmic fluid bacterium Bacillus amyloliquefaciens: A potential bioprotectant against Spodoptera frugiperla infestation in maize</i>	
Babinska Weronika , Motyka-Pomagruk Agata, Alessio Mengoni, Lojkowska Ewa	<i>Characterization of the microbiome of suppressive and non-suppressive soil in terms of disease symptoms caused by pectinolytic bacteria on potato</i>	

<u>Joanna Świątczak</u> , Agnieszka Kalwasińska , Maria Swiontek Brzezinska	<i>Complete genome sequencing of plant growth Promoting rhizobacterium Pseudomonas extremaustralis 2RO45 and its effect on canola growth</i>	
<u>Agnieszka Richert</u> , TamásFelföldi, Attila Szabó, Doña Fehér, Agnieszka Kalwasińska, Maria Swiontek Brzezińska, Grażyna B. Dąbrowska	<i>Biodiversity of microorganisms colonising the surface of biodegradable films with birch tar exposed to the aqueous environment</i>	
<u>Amir Parnian</u> , Hossein Kari Dolatabad, Farhad Dehghani, Farhad Rejali, Hadis Hatami, Hossein Parvizi, HadiPirasteh-Anoosheh	<i>Root-zone microbial enrichment effects on plant nutrient deficiency in saline condition: Quinoa and phosphorus</i>	
Session II		
<u>Bartosz Wachnowicz</u> , Magdalena Świecimska, Patrycja Golińska, Michael Goodfellow	<i>Streptomyces pinistramenti, sp. nov. as a potential biocontrol agents against phytopathogens</i>	Short video presentation
<u>Spagnoletti Federico</u> , Giacometti Romina	<i>Use of biogenic silver nanoparticles to control bacterial blight in soybean</i>	Short video presentation
<u>María Inés Stegmayer</u> , Norma Hortensia Álvarez, María Alejandra Favaro, Andrea Guadalupe Reutemann, Marcos Gabriel Derita	<i>Extracts from native Argentinean plants for the control of Anthracnose</i>	
<u>Zuzanna Smolarek</u>	<i>Biotechnology in agriculture. Species – specific insecticides</i>	
<u>Gisela Seimandi</u> , Verónica Ruiz, Juan Nicolier, Silvia Imhoff, Marcos Derita	<i>Soil fertilization capacity of chicken wastes compost on production parameters in strawberry crops</i>	
<u>Justyna Bauza Kaszewska</u> , Krzysztof Skowron, Natalia Paurowska	<i>Radiant catalytic ionization (RCI) in inactivation of Listeria monocytogenes in minimally processed foods of plant origin</i>	
<u>Piotr Kanarek , Barbara Breza Boruta</u>	<i>Microbiological analysis of agro-food industry washwater in the context of safety and recycling</i>	
<u>Mikołaj Mieszko Charchuta</u>	<i>Alpine glaciers as our sources of ericoid mycorrhizae</i>	

Edyta Zdunek Zastocka , Agnieszka Grabowska, Beata Michniewska	<i>Ureides alleviate the toxic effects of cadmium in <i>Pisum sativum</i> and <i>Phaseolus vulgaris</i></i>	
Maciej Jarzębski , Wojciech Smułek, Małgorzata Jarzębska	<i>Plant extracts as nanoemulsion stabilizers</i>	
Session III		
Tomasz Gulanicz , Ewa Klugier-Borowska, Krzysztof Zienkiewicz, and Agnieszka Zienkiewicz	<i>Characterization of TAG synthesis and lipid droplet formation in <i>B. distachyon</i>.</i>	Short video presentation
Pattarapong Inchana , Agnieszka Zienkiewicz	<i>Comparison of molecular machinery of sphingolipid metabolism between <i>Arabidopsis thaliana</i> and <i>Brachypodium distachyon</i></i>	Short video presentation
Mateusz Kwiatkowski , Aloysius Wong, Chuyun Bi, Chris Gehring, Krzysztof Jaworski	<i>Twin cyclic mononucleotide cyclase and phosphodiesterase domain architecture as a common feature in complex plant proteins</i>	
Session IV		
Ines Tarchi , Alicja Tymczewska, Bliss U. Furtado, Abderrahmane Ait-Kaddour, Aleksandra Szydłowska-Czerniak, Mohamed Bouaziz	<i>Antioxidant and Antimicrobial Activity of Olive Leaf Extract</i>	Short video presentation
Nour Ksibi , Edyta Symoniuk, Aleksander Siger, Anna Grygier, Małgorzata Wroniak, Katarzyna Ratusz, Moufida Saidani Tounsi	<i>Effect of the microwave pretreatment on the quality of grape seed oil</i>	Short video presentation
Natalia Chojnacka , Wiktoria Konieczna, Agnieszka Mierek-Adamska, Grażyna B. Dąbrowska	<i>Characterization of <i>Avena sativa</i> L. metallothionein gene family and their expression during seed germination</i>	
Szymon Poliński, Patrycja Topka , Małgorzata Tańska, Sylwia Kowalska, Sylwester Czaplicki and Aleksandra Szydłowska-Czerniak	<i>Impact of bioactive compounds of plant leaf powders in white chocolate production: Changes in antioxidant properties during the technological processes.</i>	

Katarzyna Włodarczyk , Kamila Bartoszek, Aleksandra Szydłowska-Czerniak	<i>Effect of Japanese quince fruit extracts on the physicochemical and pro-health properties of mayonnaises</i>	
Monika Beszterda-Buszczak , Rafał Frański	<i>Organic coatings as a food contact material – new reports on risk assessment and regulatory legislation</i>	
Dominik Kmieciak , Monika Fedko, Aleksander Siger, Przemysław Kowalczewski, Wojciech Cichocki, Havva Aktas	<i>Thermal polymerization process of triacylglycerols in pressed oils with a designed fatty acid composition.</i>	
Dominik Kmieciak , Havva Aktas, Aleksander Siger, Przemysław Kowalczewski	<i>Nutritional quality of newly designed cold-pressed oils blends with 5:1 ratio of $\omega 6/\omega 3$ fatty acid.</i>	
Joanna Browarek	<i>Effect of baker's yeast substitution with plant macerates on quality parameters of wheat bread</i>	
Monika Momot , Aleksandra Szydłowska-Czerniak	<i>Sensory quality of the black cumin pressed oils.</i>	
Monika Momot , Aleksandra Szydłowska-Czerniak, Barbara Stawicka	<i>Refined rapeseed oil – 24 months standard shelf life in different packaging size PET bottles (1l, 2l, 3l, 5l, 10l).</i>	
Monika Momot , Aleksandra Szydłowska-Czerniak, Barbara Stawicka	<i>Fatty acid composition of the most popular cold pressed oils on Polish market.</i>	
Katarzyna Ratusz , Natalia Pyl, Małgorzata Wroniak, Edyta Symoniuk, Justyna Susik	<i>An attempt to manage by-products of hazelnut and flax oil pressing</i>	
Monika Przeor	<i>Changes in phenolic acids content in white mulberry preparations.</i>	
Monika Przeor	<i>Paratha with dried white mulberry leaves - alternative bread for diabetics.</i>	
Milena Kulasek , Adriana Zielińska, Grażyna B. Dąbrowska	<i>The dark side of the flowering. The role of genes encoding catalases and hydrogen peroxide in the</i>	

	<i>reaction of Ipomoea nil to changes in photoperiod.</i>	
<u>Edyta Symoniuk</u>	<i>Analysis of lignan content and antioxidant activity of phacelia seeds and sprouts (Phacelia tanacetifolia Benth.)</i>	
<u>Edyta Symoniuk</u> , Zuzanna Marczak, Monika Janowicz, Katarzyna Ratusz	<i>Effect of the addition of extract from freeze-dried mullein flowers (Verbascum L.) on the oxidative stability and antioxidants activity of selected cold-pressed oils.</i>	
Session V		
Beata Kaczmarek-Szczepańska, Marta Michalska-Sionkowska, <u>Katarzyna Dembińska</u> , Olha Mazur, Joanna Świątczak, Maria Swiontek-Brzezinska	The role of microorganisms in biodegradation of chitosan tannic acid materials	Short video presentation
<u>Aleksandra Góralczyk-Bińkowska</u> , Andrzej Długoński, Przemysław Bernat, Jerzy Długoński, Anna Jasińska	Soil of dye industry landfill as a source of microorganisms capable of hazardous xenobiotics degradation	Short video presentation
<u>Krystyna Pałubicka</u> , Maria Swiontek-Brzezińska, Joanna Karbowska-Berent	Searching for natural substances to combat plant diseases caused by fungal phytopathogens	
<u>Sayyed Mahmoud Enjavinezhad</u> , Majid Baghernejad, Seyed Ali Abtahi, Reza Ghasemi-Fasaei, Mehdi Zarei, Gholamreza Zareian	<i>Investigation of potassium forms related to climate, mineralogy and physicochemical properties in toposequences soils of Fars province, southern Iran</i>	
<u>Karolina Chowaniec, Kaja Rola</u> , Piotr Osyczka	<i>Loss of cell membrane integrity in the lichens as an early warning indicator elevated heavy-metal pollution levels in post-industrial soils</i>	
<u>Katarzyna Szopka</u> , Anna Karczewska, Dariusz Gruszka, Aleksandra Świątalska	<i>Arsenic uptake by vegetables grown in allotment gardens in Złoty Stok – a former arsenic mining and industry centre</i>	
<u>Oluwadara P. Omotayo</u> , Olubukola O. Babalola	<i>Functional Potentials in Maize Rhizosphere Microbiome of Different Soil Types under drought conditions</i>
